

Skill Test (HTML5, CSS3, Bootstrap, Angular JS, PHP & MySQL)

Create a **Single Page Application** which should be responsive as well so that layout clearly visible on, it should not be cluttered on:

1. Small Screen
2. Mid Screen
3. Large Screen
4. It's not mandatory to take care of Xtra small size.

As per functionality and design mentioned below:

1. It should have 4 links as follows:
 - a. Main
 - b. Portfolio
 - c. About
 - d. Contact

Main Page:

Design of the main page as follows:

Portfolio Page:

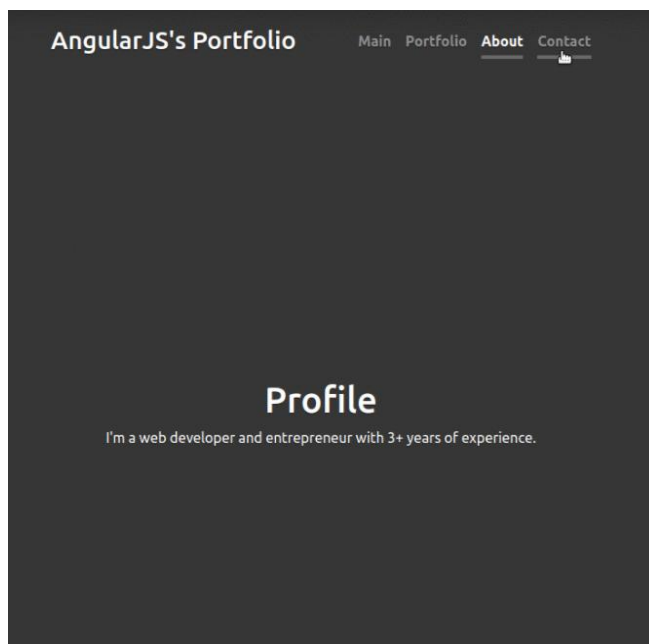

When user clicks on Portfolio, page should display as follows:

In this Project 1, Project2...and so on you can add images of your choices.

About:

When user clicks on about link following page should display and you can add about yourself.

Contact:

When user clicks on Contact following page should display, when ever submits this data it should be saved in MySQL database using PHP post method, ensure proper validation should be implemented using HTML5 and at the time of posting data in MySQL.

AngularJS's Portfolio
